MEMORANDUM

To: Public Safety Communications Advisory Commission (PSCC); Statewide Interoperable Executive Committee (SIEC); PSIC Office Partners; Interested Parties

From: Aaron Sandeen, PSCC Chairman, State CIO and Deputy Director, Arizona Department of Administration (ADOA), Arizona Strategic Enterprise Technology (ASET)

Date: July 12, 2013

RE: PSIC Office Leadership Change

Effective immediately, Lisa Dee Meyerson has been appointed as Manager of the Enterprise Project Management Office (EPMO) for ADOA-ASET. Ms. Meyerson will be taking the skills she demonstrated as Statewide Interoperability Coordinator (SWIC) and making them available to a broader range of Arizona State programs.

Concurrently, I am appointing Justin Turner as the Statewide Interoperability Coordinator for the State of Arizona. As you know, Justin served as PSIC Operations Manager (2009-2011) and Deputy SWIC (2011-Present).

Please join me in thanking Lisa Meyerson for her dedicated service and in congratulating Justin Turner in his new role as SWIC.

In the last five years, the PSIC team has accomplished many milestones for public safety communications between and among public safety personnel in Arizona, including:

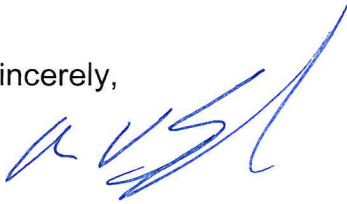

- Evolution of Arizona's Statewide Interoperability Plan
- National Emergency Communication Plan Assessments and After Action Analysis
- Development of Policies, Standards and Procedures
- Development of a Statewide Interoperable Channels Plan which includes national and state interoperable channels
- Development of a nationally recognized Communications Unit Training program

- Evolution of strong partnerships within the public safety community on grants, technical assistance, training, outreach, etc.

I have every confidence that the PSIC Office, under Justin Turner's leadership, will continue to lead the State in advancing Arizona's SCIP.

Please contact me if you have any questions.

Sincerely,
